NovaTech Solutions — Employee Handbook

Fictional HR policies for retrieval experiments

Purpose: This fictional document is designed for experimenting with document loading, text chunking, embeddings, metadata, and semantic search.

1. Working Hours

The standard workweek is Monday through Friday. Core collaboration hours are 10:00 AM to 4:00 PM IST. Teams may agree on different schedules when customer coverage and project commitments are maintained. Employees should record planned absences in the HR portal.

2. Annual Leave

Full-time employees receive 18 paid annual-leave days per calendar year. Leave is credited monthly. Employees should request planned leave at least five working days in advance when practical. Approval depends on team coverage and project commitments.

3. Sick Leave

Full-time employees receive 8 sick-leave days per calendar year. Employees should notify their manager as soon as possible when illness prevents them from working. For an absence lasting more than three consecutive working days, HR may request supporting documentation in accordance with applicable law and company procedure.

4. Public Holidays

The company publishes its holiday calendar at the beginning of each year. The applicable calendar may vary by work location. If a customer-support employee is scheduled to work on a listed holiday, the manager must coordinate the applicable compensatory arrangement with HR.

5. Remote Work

Employees may work remotely with manager approval. They must protect confidential information, use company-approved authentication methods, and keep devices updated. Public Wi-Fi should not be used for sensitive work unless a company-approved secure connection is active.

6. Expense Reimbursement

Employees should submit business-expense claims with receipts within 30 days of the transaction. A manager reviews the business purpose before Finance processes an eligible claim. The handbook does not specify reimbursement eligibility for expenses that lack receipts; employees should ask Finance before submitting such a claim.

Training sample only. NovaTech Solutions and the example policies, products, prices, and API are fictional.
